How to read this guide

2025 TEAM BETA Beta boxes, difficulty ratings, surface breakdowns and commentary are from **our runner who did this race in 2025**. Distances, gain, mile markers and climb grades are from the team's 2025 Strava-scraped sheet.

From online: official leg names, Strava routes, exchange stations, dates and night rules come from the official race site and 2025 race guide.

△ Distances/gain on the cards are our 2025 numbers. The elevation profile charts come straight from the current 2026 Strava routes (pulled July 2026). Four legs changed for 2026 — **1, 8, 30 and 31** — those cards carry a 🔄 route-update flag. When in doubt, the Strava link wins.

Difficulty: ● Easy ● Moderate ● Hard ● Very Hard · Surface: ● pavement ● gravel ● trail

Sorted hardest → easiest. Difficulty = equal parts total miles, total climb, and summed leg ratings (Easy 1 → Very Hard 4, team rating where it differs), scaled so the hardest slot = 100. Rating dots are in leg order.

SECTION 1

Legs 1–6 · Lake Leatherwood (START) → Hobbs State Park

37.5 mi · +3,140 ft

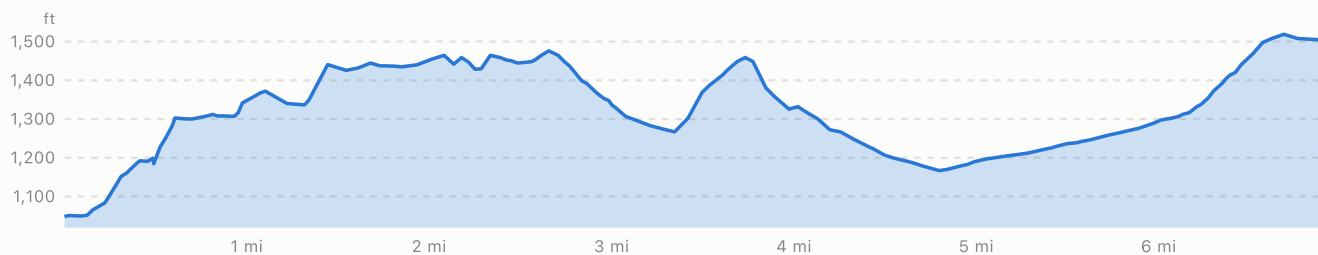

01 Didgeridoo Dash

mile 0 → 6.35 · rotation slot 1 · runner —

OFFICIAL **Hard**TEAM SAYS **Very Hard**6.35 mi +755 ft  119 ft/mi

▲ 2.8% avg · 2.2 mi · 330 ft

▲ 2.2% avg · 2.3 mi · 274 ft

Elevation profile · 1,048–1,519 ft (current 2026 Strava route)

PAVEMENT

GRAVEL

TRAIL

Trail / pavement / gravel

2025 TEAM BETA Trail has switchbacks with loose gravel and tree roots — be careful, saw several people fall. Steep climb going into Eureka, potential to walk some of it. Easy downhill through town, followed by a tough gravel climb to the finish. Could see this leg rated very hard.

⚠ Loose gravel + roots

⚠ Steep climb

 **2026 route update:** Strava now measures this leg at ~6.9 mi (our 2025 data: 6.35 mi / +755 ft). The profile below is the current route — expect the stats to shift a bit.

STRAVA ROUTE

02 Rockhouse Roll

mile 6.35 → 13.88 · rotation slot 2 · runner —

● OFFICIAL **Moderate**

● TEAM SAYS **Hard**

7.53 mi **+561 ft**  75 ft/mi ▲ 1.8% avg · 5.3 mi · 497 ft

Elevation profile · 1,067–1,554 ft (current 2026 Strava route)

PAVEMENT

All pavement

2025 TEAM BETA A lot of climbs on this one. Moderate, but arguably hard. Pay attention to turn signs and dogs.

⚠ Dogs

⚠ Watch the turns

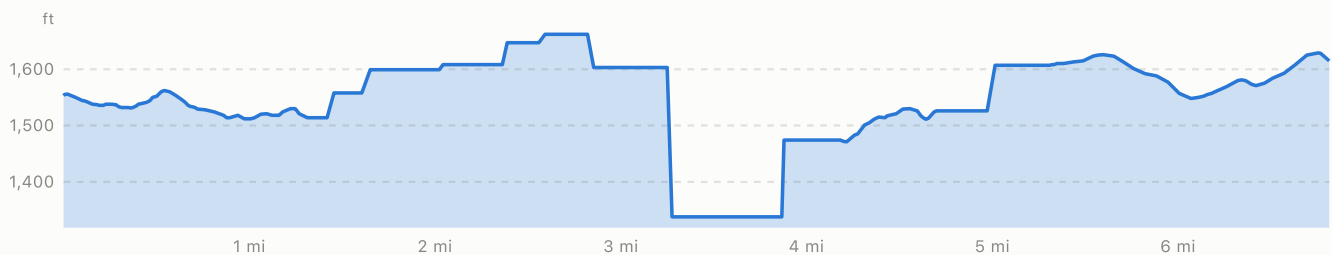

STRAVA ROUTE

03 Koala Holler

mile 13.88 → 20.69 · rotation slot 3 · runner —

● OFFICIAL **Hard**

6.81 mi **+609 ft**  89 ft/mi ▲ 1.4% avg · 3.0 mi · 223 ft

Elevation profile · 1,338–1,662 ft (current 2026 Strava route)

PAVEMENT

GRAVEL

TRAIL

75% gravel/trail · 25% pavement

2025 TEAM BETA Hard for sure. Super rocky path — even the vans can't follow it. You run across a dry river bed and finish up a steep, narrow hiking trail to the highway. Many had to walk a little.

⚠ No van access

⚠ Rocky

STRAVA ROUTE

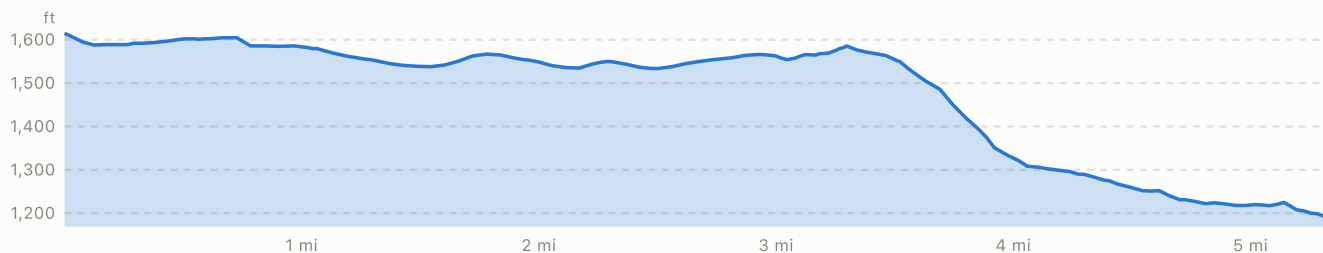

04 Hot Diggity!

mile 20.69 → 26.02 · rotation slot 4 · runner —

● OFFICIAL **Moderate**

● TEAM SAYS **Easy**

5.33 mi **+126** ft  24 ft/mi

Elevation profile · 1,194–1,615 ft (current 2026 Strava route)

PAVEMENT

GRAVEL

Pavement / gravel

2025 TEAM BETA

Starts on paved highway with moderate traffic. Mostly flat. Finishes with a descent on a rocky dirt road. Closer to easy.

⚠ Traffic

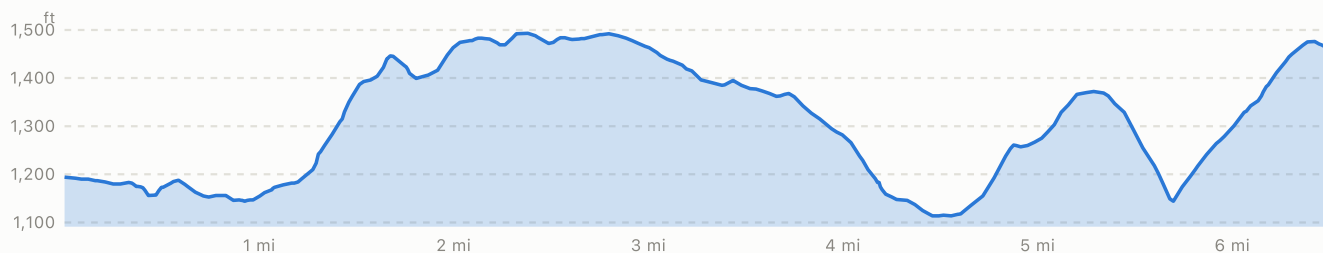

STRAVA ROUTE

05 Wobble to Cobble

mile 26.02 → 32.51 · rotation slot 5 · runner —

● OFFICIAL **Very Hard**

6.49 mi **+896** ft  138 ft/mi ▲ 3.4% avg · 1.8 mi · 315 ft ▲ 2.2% avg · 2.1 mi · 252 ft

Elevation profile · 1,114–1,493 ft (current 2026 Strava route)

GRAVEL

100% gravel

2025 TEAM BETA

Very steep climbs with some hard descents — and beautiful views. You'll have hills where you have to walk, followed by steep descents where you can run fast, but not too fast or you might fall. Pay attention to footing. Very challenging leg.

⚠ Footing

⚠ Walk the steeps

STRAVA ROUTE

06 Hobb Nob

mile 32.51 → 37.55 · rotation slot 6 · runner —

● OFFICIAL **Moderate**

● TEAM SAYS **Easy**

5.04 mi +193 ft  38 ft/mi

Elevation profile · 1,390–1,483 ft (current 2026 Strava route)

PAVEMENT

¼ mile dirt, then all pavement

2025 TEAM BETA

Easy paved highway. Rated moderate, but I would rate it easy. Nice rolling flats on pavement.

STRAVA ROUTE

MAJOR EXCHANGE — HOBBS STATE PARK

mile 37.55 · Major exchange 1 · official van-swap point

SECTION 2

Legs 7–12 · Hobbs State Park → Withrow Springs State Park

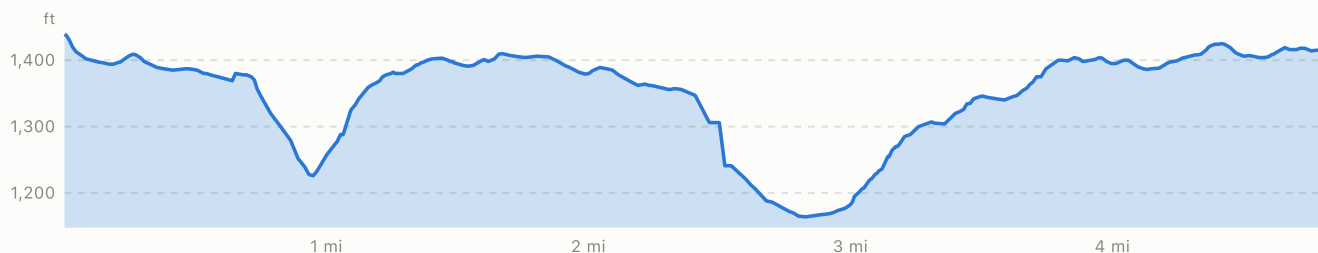

38.8 mi · +2,544 ft

07 Little Clifty

mile 37.55 → 42.42 · rotation slot 1 · runner —

● OFFICIAL **Hard**

4.87 mi **+379** ft  78 ft/mi

Elevation profile · 1,164–1,439 ft (current 2026 Strava route)

TRAIL

100% trail

2025 TEAM BETA

Rolling hills with two big inclines. Easy to go fast on the downhill. A lot of good shade.

△ Shaded

STRAVA ROUTE

08 War Eagle

mile 42.42 → 48.5 · rotation slot 2 · runner —

● OFFICIAL **Hard**

6.08 mi **+376** ft  62 ft/mi

Elevation profile · 1,141–1,427 ft (current 2026 Strava route)

TRAIL

Mostly trail · last mile pavement

2025 TEAM BETA Anticipate loose rocks, exposed roots and heavy leaf coverage. Several descents and moderate climbs. Finishes with a transition to paved road leading directly to War Eagle. GPS navigation recommended for the trail (sorry Benny).

⚠ GPS recommended

⚠ Rocks + roots + leaves

🔄 **2026 route update:** Strava now measures this leg at ~6.3 mi (our 2025 data: 6.08 mi / +376 ft). The profile below is the current route — expect the stats to shift a bit.

STRAVA ROUTE

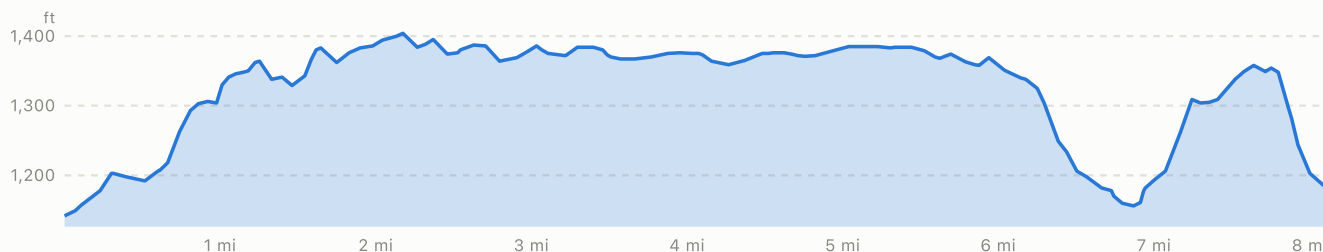

09 Up and At 'em!

mile 48.5 → 56.63 · rotation slot 3 · runner —

● OFFICIAL **Hard**

● TEAM SAYS **Moderate**

8.13 mi **+557** ft  69 ft/mi ▲ 2.1% avg · 2.1 mi · 226 ft

Elevation profile · 1,142–1,404 ft (current 2026 Strava route)

PAVEMENT

GRAVEL

60% pavement · 40% gravel

2025 TEAM BETA Lightly hilly countryside with a few medium-sized hills along the way. Seems moderate.

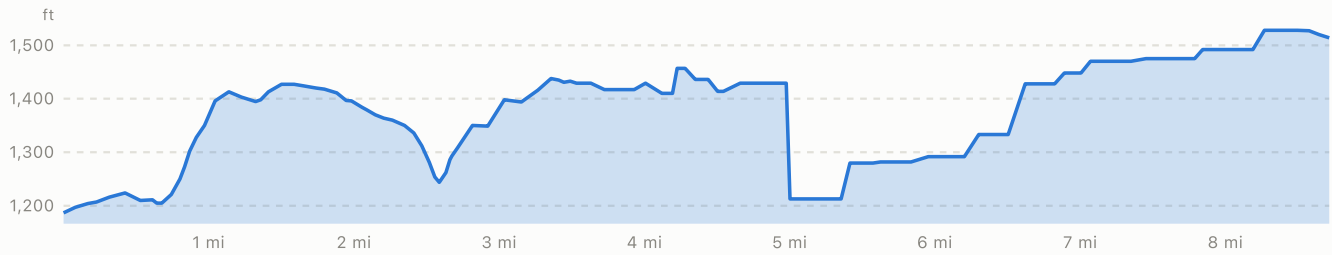

STRAVA ROUTE

10 Dingos with Banjos

mile 56.63 → 65.36 · rotation slot 4 · runner —

● OFFICIAL **Hard**

8.73 mi **+722** ft  83 ft/mi ▲ 2.9% avg · 1.5 mi · 229 ft

Elevation profile · 1,187–1,528 ft (current 2026 Strava route)

GRAVEL

½ mi pavement · 7 mi gravel · 1 mi pavement

2025 TEAM BETA You go up a gnarly hill when you reach gravel — the rock was chunky and challenging for road shoes. Back onto the highway, then gravel again. Both my favorite and least favorite leg. Rated hard, and I definitely agree.

⚠ Chunky rock

⚠ Shoe choice matters

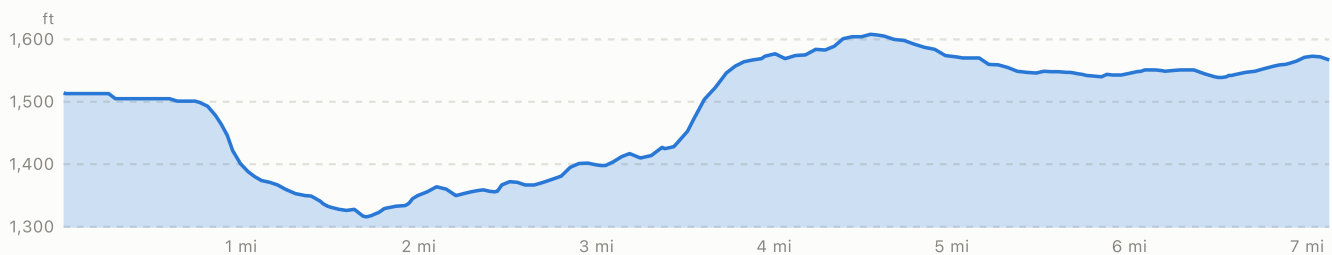

STRAVA ROUTE

11 The Roamin' Forum

mile 65.36 → 72.49 · rotation slot 5 · runner —

● OFFICIAL **Moderate**

7.13 mi **+327** ft  46 ft/mi

Elevation profile · 1,316–1,608 ft (current 2026 Strava route)

PAVEMENT

GRAVEL

⅓ gravel · ⅔ pavement

2025 TEAM BETA Easy downhill to start. Rolling hills with a couple decent climbs. Gravel was in good shape. Turns onto Hwy 23, which is flat — but be on the lookout for traffic.

⚠ Traffic on Hwy 23

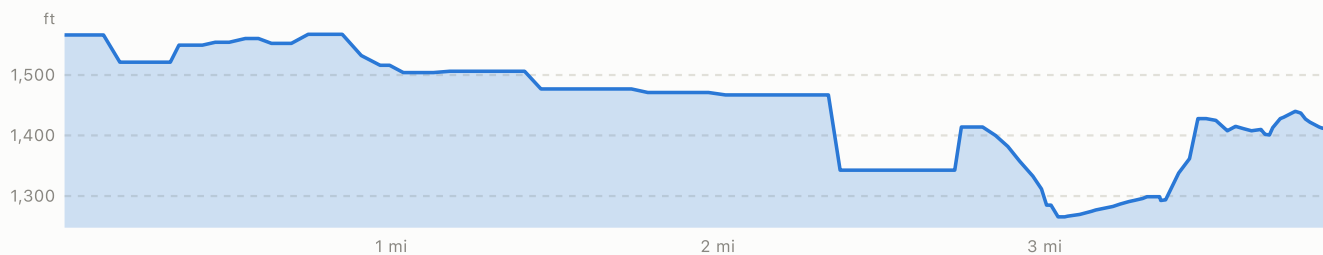

STRAVA ROUTE

12 Walkabout to Withrow

mile 72.49 → 76.35 · rotation slot 6 · runner —

● OFFICIAL **Easy**

3.86 mi **+183** ft  47 ft/mi

Elevation profile · 1,266–1,567 ft (current 2026 Strava route)

PAVEMENT

GRAVEL

Mostly gravel / pavement · last ½ mi gravel

2025 TEAM BETA

Big decline at the pavement portion. The last half mile is trail and the toughest part — the stairs on the trail are slippery.

⚠ Slippery stairs
